

TM-306U Temperature datalogger

Model No.: TM-306U

Model Index: 111156

Product Description

- Measure °C/°F Temperature
- Datalogging up to 50,000 records
- Fast USB download
- Easy- to-Use PC software for parameter settings and data analysis
- Internal Temperature alarm
- IP 65 Approval

Application

- Monitoring storage's temperature

Specification

- Display: 3 digits LCD
- LED status: red LED of Alarm, green LED of Record
- Sampling rate: 1 time/3 seconds
- Battery : 3.6V ½ AA lithium battery x1
- External Power Supply: 5 VDC with 0.5A
- Operating temperature and humidity : -40 to 85°C (-40 to 185°F)
- 0-95%, RH, non-condensing
- Instrument Dimensions: 83(L)*60(W)*24(H) mm
- Weight: About 77g

Temperature Measurement:

Unit	Range	Resolution	Accuracy
°C	-40~85	0.1	±0.6 @(-20°C ~50°C) ±1.0 @(other ranges)
°F	-40~185	0.1	±1.2 @(-4°F ~122°F) ±1.8 @(other ranges)
